

IZUMI

LED LIGHTING
JAPANESE BRAND QUARITY

JAPANESE BRAND QUALITY & CREATION

Japan is well known for its advanced technology, and with abundant experience and knowledge, we would like to provide "solution to light up the future brightly" to various fields of all the countries of the world.

The driving force for this solution is energy. Wave Co., Ltd., a Japanese company, is pioneering in harnessing future energy including renewable energy (mega solar) and provided the most advanced solution in LED light.

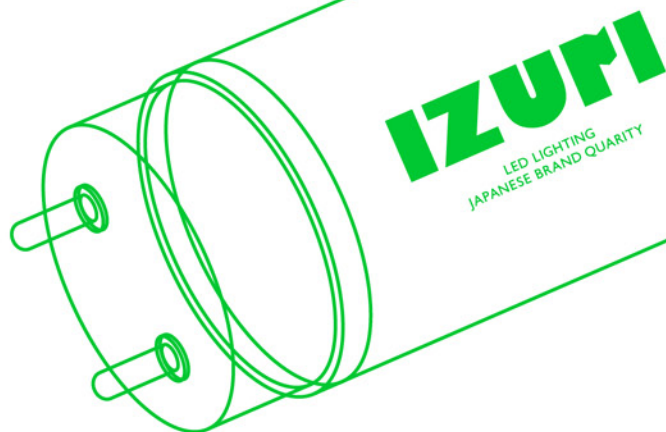

For a company doing professional business in energy, the mandate is not to provide individual products, but rather to achieve "better circulation of natural resources, better recycling of of the energy" so that it can provide a full solution from production to consumption of energy. This idea is now carried out across the border of Japan and entering the global stage.

With [Japanese brand quality & creation], we provide comfortable and commitment of Japanese quality, as well as caring for the environment, the society and economy with our enriched creativities. This lighting up the bright future is the energy of Wave Co., Ltd.

RoHS

We would like to introduce LED IZUMI brand for LED products from Wave Japan to light up brightly Vietnam homes and infrastructure in an eco-friendly, and economically manner. As a prestige renewable company of Japan, we have abundant experiences in mega solar generation business in Japan, as well as in distributing many famous major Japanese LED makers. Born from such experiences is eco-friendly IZUMI LED brand, with its high quality and resonable cost, will be introduced in Vietnam first and then to the whole Asian region.

[Wide LED lineup of IZUMI]

To meet the demand of Vietnamese market , we will provide T8 LED Tube lamp, downlight, dust-proof outdoor lamp, panel lamp etc. from Japan or Taiwan

[Features of IZUMI LED lamps]

< Japan quality and reliability >
